Warm Cloth Coats at Reduced Prices

The cold weather makes these garments absolute necessities - and the clearance prices make them doubly desirable.

It's a clearance of our entire stock, comprising the season's very best styles—not a few odds and ends bought especi= ally for a sale.

Why patronize the "bar= gain stores" and risk their doubtful values when you can choose from such high-character garments as these at such greatly reduced prices.

"America's Finest Train"

A ladies' maid adds so much to the pleasure of Madam's long railroad trip—especially if the maid be an expert hairdresser and manicure.

There's a competent maid on America's finest train, the

The only extra-fare train between Chicago, Kansas City and Los Angeles. "Extra fast, extra fine, extra fare."

Will be glad to mail you a copy of our Santa Fe de-Luxe booklet and tell you about the many exclusive features of this new train.

Before the Coffee Roasters' Association, in session at Chicago on Thursday, Thomas J. Webb, of Chicago, charged that there is in existence a coffee combine which is "the most monstrous position in the history of human commerce."

There is very slight exaggeration about this statement. It comes very close to being literally true. There is a coffee combine in Brazil, from which country comes the bulk of the coffee used in the United States, which is backed by the government of Brazil and financed by it, which compels American consumers, as Mr. Webb said. "to pay famine prices for coffee when no famine

The worst thing about this is that the consum put up the money through which this combine, There were formerly revenue duties imposed upon all coffee entering the United States. Those taxes were denounced as an imposition upon the people: as taxing the poor man's breakfast table, and the like. The taxes were removed. Immediately coffee up to the full amount of the former customs taxes in this country. The revenue which formerly went into the treasury of the United States was diverted to the treasury of Brazil. The poor man's breakfast coffee continued to cost him the

But this was only the commencement. The "valorization" plan was evolved in Brazil. Through this plan the government, using the revenues derived from the export duties for the purposes, takes all of the surplus crop in a season of large yields and holds it off the market, thus keeping the supply down to the demands of the market and permitting the planters to receive a much higher price than they would otherwise

The United States consumes more Brazilian coffee than does the rest of the world. We are the best customers of Brazil, and Brazil buys little from us. Now Brazil is promoting, financing and maintaining a trust designed, and working effectively for the purpose, to compel American con-sumers to pay an exorbitant price for the coffee they use. What is the remedy?-Scattle Post-In-

ers of the United States have been compelled to to further cinch them, has been made effective. thereafter Brazil imposed an export duty upon same old price.

Standard statistics of the coffee trade show a falling off in sales during the last two years of over two hundred million pounds. Authenticated reports from the Postum factories in this city show a tremendous increase in the sale of Postum in a like period of time.

While the sales of Postum invariably show marked increase year over year, the extraordinary demand for that well-known breakfast beverage during 1911 is very likely due to a public awakening to the oppression of the coffee trust.

Such an awakening naturally disposes the multitude who suffer from the ill effects of coffee drinking to be more receptive to knowledge of harm which so often comes as a result of the use of the drug-beverage, coffee.—Bettle Crest Evening Nant—Dec. 19, 1911.

Economy to one's purse is not the main reason for using Postum.

It is absolutely free from ANY harmful substance, such as "caffeine" (the drug in coffee), to which so much of the nervousness, biliousness and indigestion of today are due. Thousands of former coffee drinkers now use Postum because they know from experience the harm that coffee drinking causes.
